SPECIFICATION

Enclosed Proposal Form shall be submitted following all requirements and conditions specified in the clauses below.

1. Evaluation Criteria

- 1) Qualifications and competence of the principal researcher/analyst
- 2) Credibility on institutional management experience on the survey projects. Some experiences in conducting questionnaire surveys with foreign clients (e.g., UN agencies), especially with Japanese clients are required.
- 3) Soundness of research methodology to meet the purposes of the survey
- 4) Experience with household surveys on the related subjects
- 5) Adequacy of work plan to complete the survey in the required timeframe
- 6) Familiarity with the conditions of the study area.

2. Title of the Research

“The demand for and impacts of solar lamps in Bangladesh (2nd year)”

3. Background and Objectives of the Research

IDE-JETRO undertakes solar lantern research in the river island areas of Northern Bangladesh aimed at evaluating the impact of a new technology for off-grid electricity provision at the river Island areas. This proposed research will increase our understanding of the causal impact of access to solar lantern on various outcomes, such as child health, educational performance and overall household income, by using large scale field experiment techniques on river islands. Once the direct impact is estimated, emphasis will be put on the likely mechanisms underlying the adoption and efforts will be made to understand how to promote the diffusion of such an innovative technology in the developing countries.

4. Scope of Work on the Research

The household surveys will be conducted twice in this fiscal year.

The contractor will do the following:

1. Survey on the specified 800 households (Follow-up surveys).
2. Survey on time diary of the specified 600 students.
3. Training of survey interviewers.
4. Management of survey interviewers and processes.
5. Regular reporting of the progress.
6. Data verification and entry.
7. Submission of data.
8. Help IDE researchers to conduct the marketing survey.

5. Expected Outcome

It is expected that submitted survey data allow IDE researchers to rigorously analyze the solar lamp impacts on various household welfare. Policy makers will be able to understand more about Char dwellers' livelihood, and possible interventions that can help them escaping from vicious cycle of poverty.

6. Research Schedule

Term of Research work:

Research work shall be conducted from June 16, 2014 to February 28, 2015.
